SUMMARY

Computer Engineering student at Chandigarh University (CGPA 8.3) who builds web apps and works with Python, FastAPI, SQL, and machine learning. I have built projects end-to-end – from training models to serving them as APIs and building the frontend on top. I like writing clean code and solving real problems.

EXPERIENCE

- | | |
|---|--------------------------------------|
| ML Intern
<i>InternPro</i> | Jul 2025 – Sep 2025
<i>Remote</i> |
| <ul style="list-style-type: none">– Built regression models for wine quality prediction, reaching 85% accuracy.– Completed 3 full ML projects in 6 weeks, each with data cleaning, model training, and documentation. | |
| Tutor
<i>Thought Wave Software Solutions</i> | Jan 2024 – Mar 2024
<i>India</i> |
| <ul style="list-style-type: none">– Taught C, C++, SQL, and OOP to 25+ students across 12 weekly sessions with hands-on exercises. | |

PROJECTS

- | | |
|--|----------------|
| Spam Mail Detection <i>Python, Scikit-learn, NLTK, FastAPI</i> | Dec 2025 |
| <ul style="list-style-type: none">– Trained a logistic regression model on 10,000+ emails to detect spam with 94% accuracy.– Used TF-IDF to turn email text into features across 5,000+ words; tested on 2,000+ new emails with 93% accuracy.– Served the model via a FastAPI REST endpoint so any app can send an email and get a live prediction. | |
| Cricketers Performance Clustering <i>Python, Scikit-learn, Pandas, FastAPI</i> | Jan 2026 |
| <ul style="list-style-type: none">– Grouped 500+ cricketers into performance clusters using K-means on runs, average, innings, and strike rate.– Cleaned 8 stats, handled 15% missing data, and built 10+ charts to show the results clearly.– Exposed results via FastAPI so a frontend or dashboard can fetch and display them easily. | |
| TWSS Learning Platform <i>HTML, CSS, JavaScript, FastAPI, Supabase</i> | Jan – Mar 2024 |
| <ul style="list-style-type: none">– Built a full stack learning site covering 10+ topics; FastAPI backend handles login, content, and user progress.– Used Supabase as the database; site is fully mobile-friendly and hosted on Cloudflare Pages with 99.9% uptime. | |
| Portfolio Website <i>HTML, CSS, JavaScript, EmailJS</i> | |
| <ul style="list-style-type: none">– Personal site showing 5+ projects; contact form via EmailJS with 100% delivery; scored 95+ on Google Lighthouse. | |

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Responsive Design
Backend: FastAPI, Python, PHP, REST APIs
Database: SQL, MySQL, Oracle, Supabase
ML & Data: Scikit-learn, NLTK, K-means, Logistic Regression, Random Forest, PCA, TF-IDF, Pandas
Tools: AWS, Git, GitHub, Jupyter Notebook, Google Colab, Cloudflare Pages
Other Languages: C, C++, Java

CERTIFICATIONS

- **Data Analysis with Python** – IBM / Cognitive Class, 2026
- **Introduction to Machine Learning** – Columbia University, 2025
- **Big Data Analytics with AWS** – Intellipaat, 2025
- **AWS APAC Solutions Architecture Simulation** – Forage, 2025
- **BCG GenAI Job Simulation** – Forage, 2025
- **Databases and SQL for Data Science with Python** – IBM, 2025

EDUCATION

Chandigarh University <i>B.E. in Computer Engineering CGPA: 8.3</i>	Jul 2023 – May 2027 <i>Mohali, Punjab, India</i>
AANM and VVRSR Polytechnic <i>Diploma in Computer Science and Engineering 90.8%</i>	2021 – 2024 <i>India</i>
